

Registration is now open for HPCKP

- The new edition of the HPC Knowledge Portal Annual Meeting (HPCKP) will take place from May 17th to 18th 2023, in Barcelona, Spain

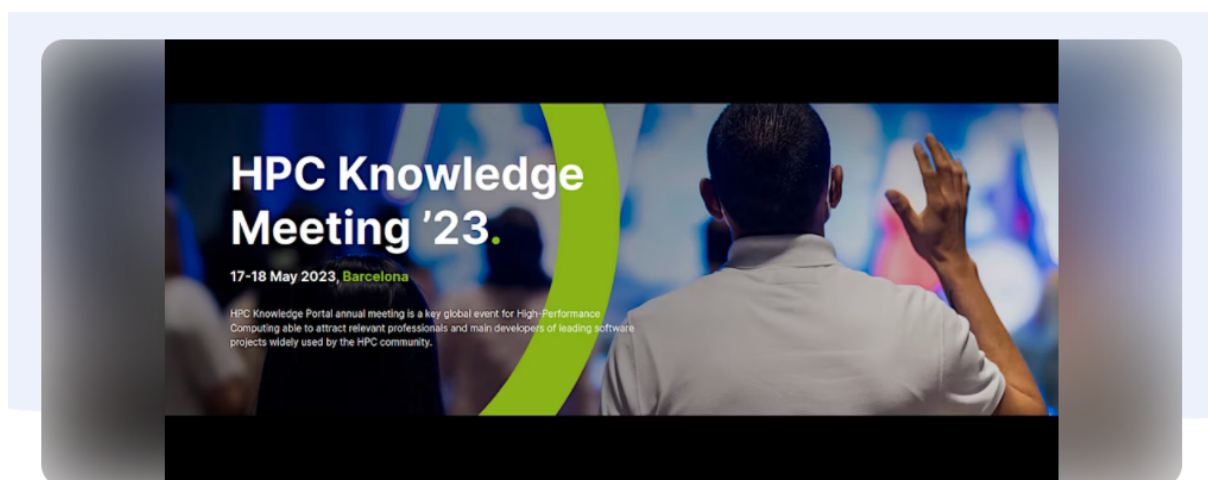

Barcelona, April 18th 2023 – Registration is now open for the [HPC Knowledge Portal Annual Meeting \(HPCKP\)](#) through [this link](#). Tickets are free but registration is required to attend the event.

The new edition of the HPCKP will take place in person again, after the two past virtual editions of 2020 and 2021, due to the pandemic outbreak.

It will be organized from May 17th to 18th 2023, in Barcelona, Spain, by HPCNow! This event is a key global conference for High Performance Computing and High Performance Data Analytics, that gathers top experts in these fields.

As a novelty in the 2023 edition of HPC Knowledge Portal Annual Meeting, **Quantum Computing (QC)** topics will become part of the program for the first time. QC sessions will be focused on the current status and recent advances of this next stage of Supercomputing, including quantum simulators, quantum computers and the accessibility to this promising technology. A preliminary version of the agenda is available [here](#).

The talks of the previous editions of HPCKP are available on the [YouTube channel of HPCKP](#), and further information about the event can be found on the social media channels: [LinkedIn](#), [Twitter](#) and using the hashtags **#HPCKP** and **#HPCKP23**.

About HPCNow!

Founded in 2013 in Barcelona by a small group of HPC enthusiasts with a large experience in the HPC ecosystem, HPCNow! has become one of the most versatile players in the HPC field. HPCNow! is also operating from New Zealand to leverage response to the growing demand in Asia, Australia, and the USA. The company provides services with a broad view, including consultancy, HPC cluster deployment, support to system administrators, domain-specific support to computational scientists & engineers, performance analysis, application tuning, training, and development of HPC tools. HPCNow! customers span from medium and large companies in pharma, life science, aerospace, renewable energies, and public sector HPC consumers like universities and research centers.
