

HPCKP23 videos and PPT presentations are already available online!

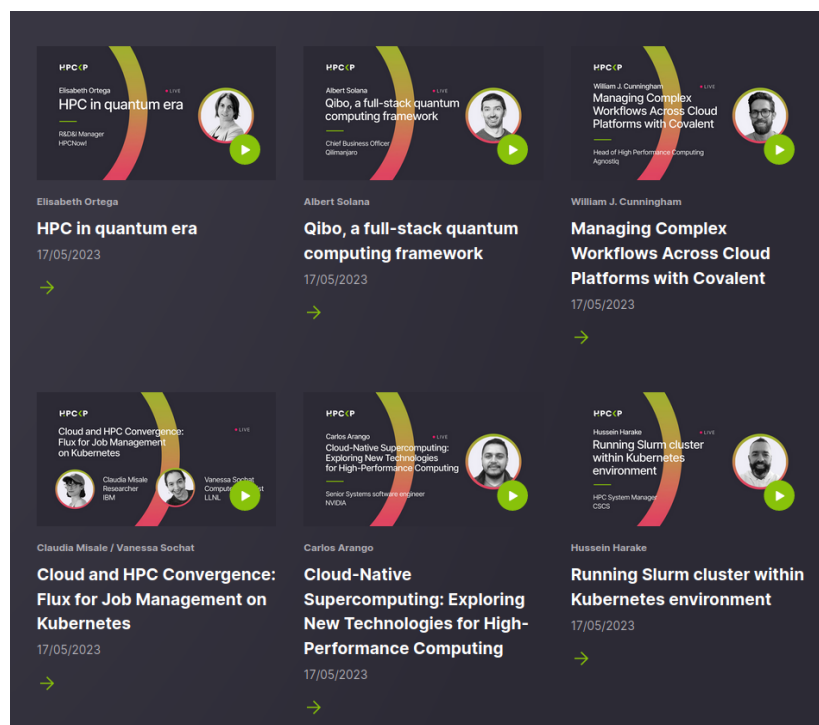

- The last edition of the HPC Knowledge Portal Annual Meeting (HPCKP) took place from May 17th to 18th 2023, in Barcelona, Spain

Barcelona, June 28th 2023 – The videos and PPT presentations of the HPCKP23 edition are already available on the website through [this link](#).

The event was organized from May 17th to 18th 2023, in Barcelona, Spain, by HPCNow!, and it is a key global conference for High Performance Computing and High Performance Data Analytics, that gathers top experts in these fields.

As a novelty in the 2023 edition of HPC Knowledge Portal Annual Meeting, **Quantum Computing (QC)** topics became part of the program for the first time. QC sessions were focused on the current status and recent advances of this next stage of Supercomputing, including quantum simulators, quantum computers and the accessibility to this promising technology. The agenda is available [here](#).

Further information about the event can be found on the social media channels: [LinkedIn](#), [Twitter](#) and using the hashtags **#HPCKP** and **#HPCKP23**.

About HPCNow!

Founded in 2013 in Barcelona by a small group of HPC enthusiasts with a large experience in the HPC ecosystem, HPCNow! has become one of the most versatile players in the HPC field. HPCNow! is also operating from New Zealand to leverage response to the growing demand in Asia, Australia, and the USA. The company provides services with a broad view, including consultancy, HPC cluster deployment, support to system administrators, domain-specific support to computational scientists & engineers, performance analysis, application tuning, training, and development of HPC tools. HPCNow! customers span from medium and large companies in pharma, life science, aerospace, renewable energies, and public sector HPC consumers like universities and research centers.
